BEST PRACTICE II

Learning through Lense: Film screening sessions

Department of History

In tune with the week-long celebration of the Students' Week, the Department of History arranged for a two-day film screening programme on January 5 and January 6, 2023. The films screened were as follows:

January 5, 2023

Paddington

The Great Dictator

January 6, 2023

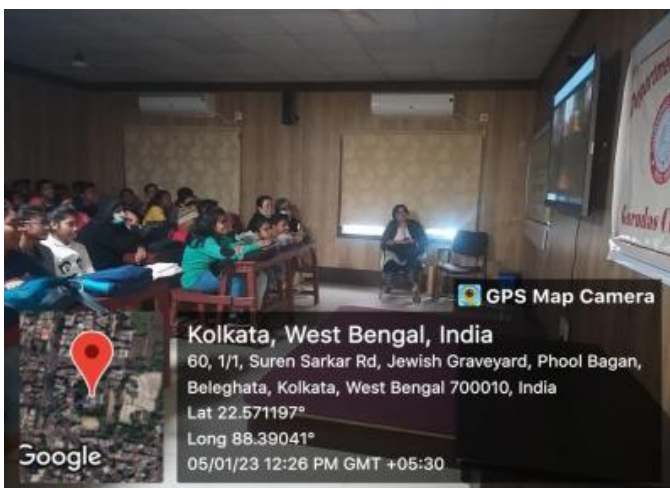

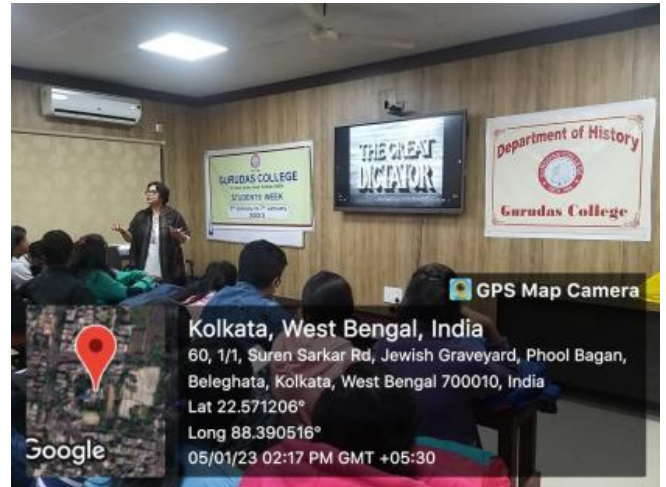

The Sound of Music

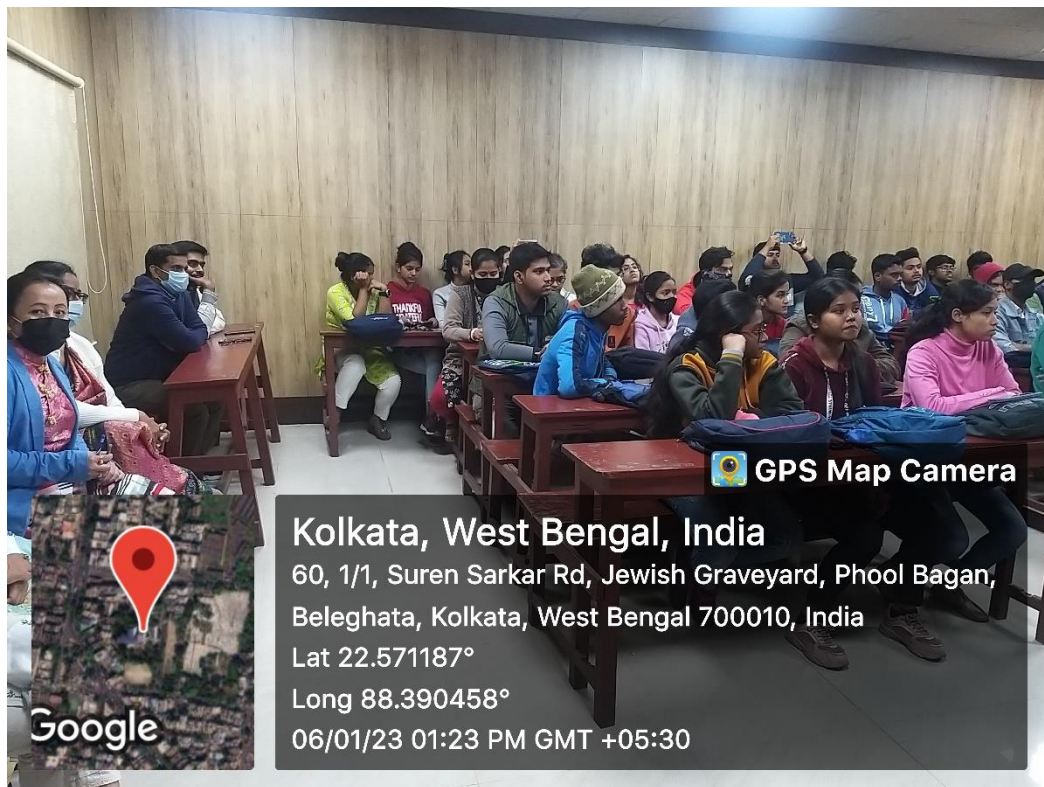

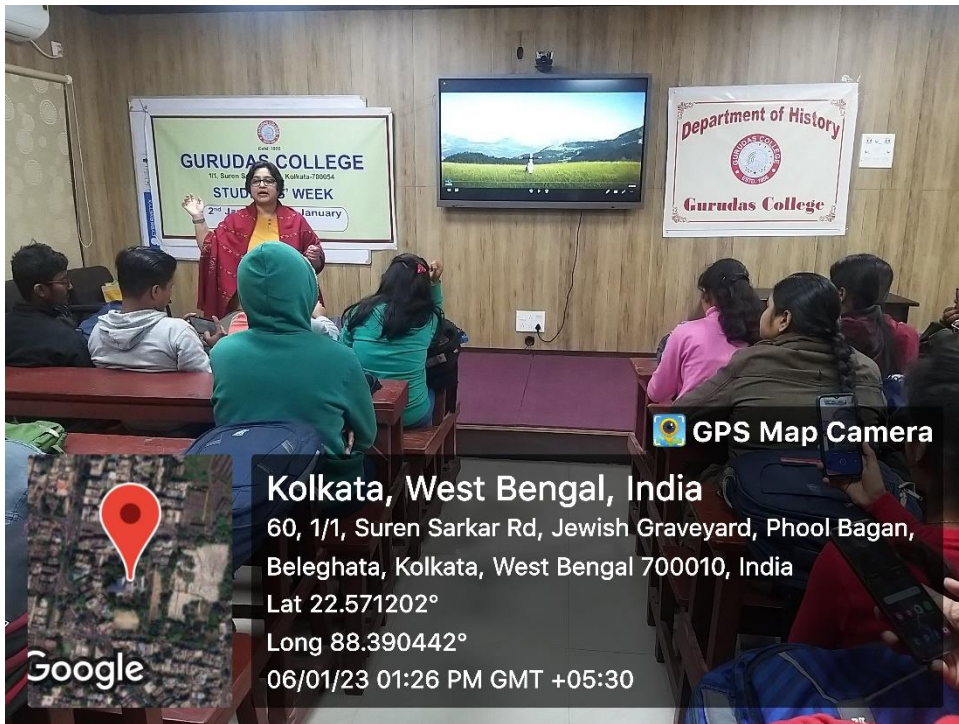

The primary objective of the Department in organising this film-screening programme was to help students develop a fair sense of the place of history in the wider popular culture. The Department sought to provide exposure to the students to the use of historical settings in films, along with the varied representations of historical facts and characters in the domain of popular entertainment. The idea was to orient students towards the intertwining of the realms of history, popular culture and entertainment. The films were selected keeping in mind the courses prescribed in the syllabus. Paddington is based on the theme of geographical exploration, colonialism and overseas exploitation which are part of the courses taught in History Hons CC VI in Semester III. The Great Dictator and The Sound of Music are set against the backdrop of the rise of fascism and dictatorship in Europe, a compulsory course in History Hons CC 11 and History General DSE A2 in Semester V.

The participants during the film screenings included not just the students of the Department of History but also students from other departments of the college. The response that the Department received for the film-screening programme was impressive. Students whole heartedly participated in the programme and thoroughly

enjoyed the films. Students even requested for more such film screenings in the future.

On January 10, 2023, the English department of Gurudas College hosted a stimulating event exploring the concepts of tragedy and catharsis. The event, titled "Tragedy and Catharsis: A Discussion and Screening," featured a thought-provoking discussion followed by a screening of the acclaimed film, *Grave of the Fireflies*. The event was originally scheduled for January 9th, but had to be postponed due to unforeseen circumstances. The discussion delved into the complexities of tragedy as defined by Aristotle. Attendees actively participated in dissecting the elements of tragedy, including the tragic hero, hamartia, and the inevitable downfall. The conversation delved into the concept of catharsis, the emotional purging experienced by the audience, and its role in tragedy.

Following the insightful discussion, the audience settled in for a screening of "Grave of the Fireflies," a poignant anime film that masterfully portrays the tragedy of two siblings during World War II Japan. The film's powerful narrative resonated deeply with the audience, prompting further reflection on the themes explored earlier in the discussion.

The event proved to be a resounding success, drawing an engaged audience. The stimulating discussion provided a platform for attendees to delve into the intricacies of tragedy and catharsis, while the subsequent film screening offered a powerful illustration of these concepts. The event's format, combining intellectual discourse with artistic expression, fostered a deeper understanding and appreciation for the enduring themes of tragedy.

Department of Bengali

The Department of Bengali organized a One Day Film Festival on 23.5.2023. Two Bengali short films—*Bhuban Majhi* (2017), directed by Fakhrul Arefeen Khan and *Moshari* (2022), directed by Nuhash Humayun were screened in the Rajendralal Sabhagriha. The students enthusiastically participated in the programme and were immensely enriched by history, fiction and the stark reality of life, enmeshed in the films. *Moshari*, an exceptionally haunting short film, set in a post-apocalyptic Dhaka, helped them understand the power of love and struggle for survival.
